## EDUCATION

**University of Washington** — Seattle, WA | Expected Graduation: June 2022

- B.S. Computer Science (Direct Admission): 3.89 GPA
- Relevant Coursework:
  - Data Structures & Parallelism
  - Software Design & Implementation
  - Computer Security
  - Introduction to Algorithms
  - Systems Programming
  - Programming Languages

**Tualatin High School** — Tualatin, OR | Graduated: June 2019

- High School Diploma & I.B. Diploma: 4.00 GPA (Valedictorian)

## TECHNICAL SKILLS

- Java, C, C++, SQL, JavaScript, SQL++, OCaml, React, LaTeX, MATLAB
- Bash, Git, GitLab, AWS, Microsoft Azure, Agile

## WORK EXPERIENCE

Software Development Engineer Intern – Amazon Web Services | June 2021 – September 2021 | Seattle, WA

- Developed a generic HTTP handler in **Java** that enables dynamic support of AWS IoT services' HTTP APIs
- Generic HTTP handler will save AWS engineers 2+ months of work **for each** HTTP API needing support

Undergraduate Research Assistant – University of Washington PLSE Group | June 2020 – September 2020 | Seattle, WA

- Found & fixed bugs in the [Checker Framework](#), which extends the Java type checker to catch more bugs
- Used the Checker Framework to analyze signedness errors in GitHub repositories with unsigned arithmetic

TA for CSE 331: Software Design & Implementation – University of Washington | March 2020 – August 2020 | Seattle, WA

- Led & taught a 30-person section using active learning techniques, such as interactive worksheets
- Received a 4.7/5.0 instructor rating from students

Engineering Intern – Collins Aerospace (formerly Rockwell Collins) | June 2017 – August 2017 | Wilsonville, OR

- Pioneered a linear algebraic algorithm for a technology that will automatically align Heads-Up Displays' boresights
- Technology will save \$500k+ for airlines who currently use expensive machinery for boresight alignment
- Presented my work to 50+ students, mentors, & community members in a symposium at the University of Portland

## PROJECTS

- Software Design: built a GUI in **Java & React** that finds paths between UW buildings using a campus map & MVC
- Systems Programming: built a search engine for static content & webpages in **C & C++**
- Web Programming: built an ecommerce website for users to buy items using **JavaScript, HTML, CSS, & SQLite**
- Created a [Java style checker](#) in **Java** to ensure correct K&R style, indentation, line length, & use of optional braces

## LEADERSHIP EXPERIENCE

President of Tualatin High School Speech & Debate Club | September 2017 – June 2019 | Tualatin, OR

- Taught speech & debate skills to new members, many of whom later placed in speech & debate tournaments
- Competed & placed in speech & debate tournaments

Appointed Representative to Tigard Youth Advisory Council (TYAC) | August 2017 – June 2019 | Tigard, OR

- Participated in street-cleanups, helped at food banks & charities, & led community events
- Wrote articles summarizing the TYAC's actions, which were published on the City of Tigard website

## AWARDS

- UW Annual Dean's List – 2019-20
- 1st in Parliamentary Debate at Wilson Invitational Tournament – 2018
- President's Education Award – 2019
- 2nd in Word Processing at state FBLA competition – 2017
